

10. Crime & Drugs:

Our major problem that has done more to stop our opportunity for jobs and new business is the tremendous problem of drugs and crime. Families have to unite and help law enforcement agencies stop this shameful disease. The taxpayers have paid millions of dollars in property taxes to fight this problem. The threat of gang killings is putting our neighborhoods in constant fear. Every drug dealer should be put in jail where they would live among their own kind and have no parole or benefits. Our State legislators and court system must come together with a plan to help save Lake County and America. Criminal Justice is 35.06 % and county welfare is 43.79 % of Lake County's total property tax.

These recommendations along with the current cost saving programs initiated over the past year by the county elected officials would truly benefit the citizens of Lake County and lower property taxes for everyone.

Sincerely In Good Government,

Gerry Scheub 2nd district
LAKE COUNTY COMMISSIONER
