GERRY J. SCHEUB, Second District

March 29, 2007

Our main concerns in Lake County are property taxes, economic development, jobs for our young people, and clean air and water.

As the Illiana has lost most of its support we have the opportunity to do something, which will achieve all of the above goals. Lake Shore Drive as I have previously said would bring in thousands of jobs, both skilled labor and professional jobs for years to come. It would ensure economic development, reduce property taxes and expand new growth for our northern cities of Lake County.

It would ensure the success of the Chicago/Gary Airport and a very big goal would be the cleaning up of our lakefront and making it the major attraction of Lake County. Lake shore drive would be a good goal for Major Moves Monies.

Sincerely

Gerry J. Scheub
Lake County Commissioner 2nd District
